Group	ID	As a user, I want to be able to...	so that I can...
Account (A)	A1	create a personal account	have a personalized food experience
	A2	login	access / update my personal content
	A3	reset my password	regain access to my account when I forget my password
	A4	change my password	take measures to prevent others from accessing my account
	A5	add two-step verification	add an extra layer of protection on my account
	A6	check which IPs my account has logged in from	see if my account has been compromised
	A7	delete my account	stop using the app
Networking (N)	N1	connect with my Facebook / Skype / Twitter	network with my friends on different platforms
	N2	share to other social media	easily notify followers on those other social medias what I'm eating without having the repost separately on each
	N3	create events to go eat together with other users	eat with friends / schedule parties
	N4	create groups	connect with people with similar interests
Photos (P)	P1	upload photos of my food	keep a history of the food I've eaten / created
	P2	take photos with my camera within app	streamline the process of inputting the photo into the app (don't have to take a photo with the default camera system and upload)
	P3	apply filters to photos	make my photo look better (and not have to do it in another photo editing application)
	P4	crop photos	remove unnecessary background that distracts from the food
	P5	add text to photos	personalize photos with messages
	P6	add tags to photos	organize my photos with tags
	P7	stitch together multiple photos	create an "album" photo
	P8	remove uploaded pictures of my food	prevent others from seeing it in case I change my mind
	P9	take videos of food-making process	want to demonstrate to others how to perform the recipe
User	U1	add friends	see their pictures of food and allow them to see mine

Interaction (U)			
	U2	remove friends	prevent us from seeing each other's pictures (on the "wall") in case I change my mind
	U3	block people	prevent interaction
	U4	hide content made by friends	hide posts made by certain friends
	U5	view pictures of my friends' food	know what / where they've been eating
	U6	friend request people similar to me	make friends with people who have similar taste and see their food.
	U7	Change the visibility of my profile/homepage	Control who can see my profile and homepage.
	U8	save favorite pictures made taken by others	maintain a list of images that I like
	U9	view friends of friends	so I can add more people and see their food
Post details (D)	D1	rate / comment (if unregistered, anonymous) photos	share my opinion on that picture and tell / ask the owner of the photo anything
	D2	view more details about others' post (comments/ratings + other details)	learn more details without having to ask
	D3	tag my food posts by categories	organize my food and easily look it up later
	D4	add a description of my photos	keep note of any details about the food and allow others to also learn of these details
	D5	add a recipe for a type of food I prepared at home (shouldn't be tied to the picture but the food in the picture and the picture should link to the recipe)	use the application as a recipe book and share the recipe with others
	D6	view recipes of food others prepared	learn how to make something without having to ask
	D7	tag friends who ate with me	show who I ate with and those people can also see the photos easily
Browsing (B)	B1	search by tag	explore foods that match certain taste palates or dietary restrictions
	B2	search by rating / comment count	explore the popular foods around a certain area
	B3	search by popularity / trending / viral within the last <time period> (day / week / month / year / all time)	explore foods that are popular at any time period
	B4	search by location	explore new foods / places to eat, explore what types

			of food are popular in a certain region
	B5	search by budget	explore food with different price range
	B6	search by upload time	explore food to eat for breakfast, lunch, and dinner
	B7	advanced search using any of the above options	explore food with more precision and efficiency
	B8	change view formatting (tiled / details / etc)	explore food based on picture / details
	B9	refresh the "news feed"	fetch the new posts that have been made while I'm browsing
	B10	remain at current location on the "news feed" when a new post has been made	continue looking at whatever I've been looking
